Charles Acombe, sworn .- I am a willow basketmaker, the shop where I work is in Spring-street, New-York. On Christmas Day, a woman whom I have since known as Polly Bodine brought a basket to be mended; it was mended, and she came after it again on Tuesday morning. This basket belonged to Mrs. Houseman.

Catherine Jane Hawkens, sworn.-I am chambernaid on board the steamboat Staten Islander which runs from the Quarantine Ground to New-York. I do not know Polly Bodine. A woman of strange appearance came on board last Saturday at a quarter to seven. I first saw her sitting by the stove; she did not seem to be willing to talk. I said, you take an early start. I was getting coals for the stove. I told her she must excuse the fire : she asked if we had any thing to eat; I told her we had in the forward cabin. I went and got her a glass of gin and a piece of pie. She paid me a one shilling piece. She went to New-York and went ashore with the rest of the passengers. While on board the boat she sat in the darkest part of the cabin. Thave never seen the prisoner Waite. I should not know the woman again, except from her

I was loading a pair of pistols at the time; I fired one of them; I then observed she had a fit; cannot say how long it was before she recovered; I cannot recollect any conversation that transpired in the family; I have no idea how Polly got to the Quarantine that night; I have never heard it recommended that nothing should be said in relation to the are: I have heard it said that the person who murdered Mrs. Houseman thought they would get the \$1000 which was supposed to be in the house; I have heard it spoken of in Mr. Houseman's; I first went to the house the day on which the fire and marder were discovered; I did not hear it said whether it was the result of accident or not, I first thought it was from accident; I do not think so now by the way it was managed; I heard the family suspected that Waite was concerned in it; I have never heard that Waite was on the Island on the Saturday night previous to Christmas; I do not know that my wife made up an opinion as regards the guilty person. Wm. Henry, a colored boy, sworn .- I live at the

SANDA'S SARSAPARILLA.—Light is the most important, the most sensible and striking phenomenon of the Universe. It affords the means of exalted and exquisite pleasures, and is the fords the means of exalted and exquisite pleasures, and is the source from whence man derives the largest proportion of valuable knowledge. When decomposed it is found to consist of the seven primary colors, thus preving the Sun, the source from whence it comes, to be the grand painter of creation. As light is to the physical world, so is health to the physical frame: remove the one, and all is blank; take away the other, and min withers ere he blooms. As the genial rays of the Sun infuse warmth and renewed vigor into the veretable creation, so Sands's Sarsararilla infuses strength into the weak and languid frame. Daily experience shows results the weak and languid frame. Daily experience shows results the most pleasing and unlooked for, thus gladdening the hearts of housands who had given up to despair. The Lock picked by Messrs. Pettes and Dunham is the same kind of Lock sold to Banks by Mr. Jenes as agent for Mr. John Day, with additional safe-guards. I refer to J. W. The Lock was put up by Mr. Day, u,der a written stipulation, and a certified check for Five fundred Dollars was placed by Mr. Day in our lands, to be the reward of the gentlymen operating upon it, if successful in headlength.

In our opinion, the whole matter has been conducted with great Caution, and with the determination on the part of both parties to make this demonstration a conclusive and satisfactory one. The Lock was placed upon an Iron Safe and locked by the party pating it up, and the key was retained by him during the time of operating, and was hever seen by either of the persons operating, nor was the Lock unlocked by Mr. Day or others from the time submitted, although they claimed and had the privilege of so doing if they thought project and, upon the strongest evidences of our senses, we are bound to be tieve that the said improved Manifold Perma ation Lock has been fairly, fully and honestly demonstrated insecure by the

FRIDAY, 21 O'CLOCK, P. M.

Massachuserrs.-We have some farther returns from the Special Elections for Congress in this State, which render it probable that no one but Mr. Rockwell is chosen, though there is a Whig gain in each District as follows:

Nov. '43. Hild District. Jan. '44.
Abbott. Massur. Abol. &c. Abb. Man. Ab. &c.
22 towns....4683 4357 1280 3164 2373 941 Maj. against Abbott....954. Do. Man...150. Whig gain 804.

Two towns to hear from, which cannot elect Abbott!

Nov. VIIth District. Jan. Scat. Rockwell, Brown, Scat. 26 towns 3,402 2,975 375 2,697 1,946 347 Maj. for Rockwell. . 52. Do. now. . 404. Hardly a doubt of Rockwell's election.

THE MAIL ROBBERY .- Charles Blake and Lemuel Flowers, stage drivers, connected with carrying the U.S. Mail, were arrested at Hudson, and brought into the city this morning by Assistant Marshal Smith, charged with being concerned as accomplices with Hoff in the recent mail robbery

FROM NOVA SCOTIA .- We have Halifax papers to the 23d ultimo. The steamship Acadia, hence for Liverpool, arrived at Halifax on the 19th, in 41 hours from this port, and left for her destination the same day. These papers bring the news of the dissolution of the Cabinet of Nova Scotia, and a new Provisional arrangement of it. At our last advices the elections of Members for a new Legislature were just completed. That Legislature being about to come together, it appeared that those of the Ministry who had advised the dissolution of the late Legislature were in the minority.

A fire took place on Albemarle-street, Halifax, near the corner fronting on the South Barrack, or the 22d ultimo, by which a house belonging to H. H Cogswell was destroyed, and a woman and two children lost their lives. Boston Adv.

FIRES .- We regret to learn that the barn of Mr. Robert Spencer, a few miles south of this place, was destroyed by fire on Friday night last. Several horses and cows, the grain in the barn and some stacks adjoining, we understand, were destroyed.

The roof of the house of Mr. E. Houck of North Market street, caught fire Friday evening, but was extinguished. Since the above was written, and during the high wind last Saturday night, the house of Mr. Houck was again on fire, under circumstances rendering it

certain that it was the work of design. A negro girl belonging to Mr. H. has been committed to jail on suspicion that she is the incendiary. Several alarms of fire were made on Saturday [Examiner, Frederick City, Md. night last. STEAMBOAT SUNK .- The Louisville Journal of

the 29th ult. says that the steamboat Sylph, on her trip from St. Louis to the Illinois River, on Saturday last, struck a rock at 10 o'clock in the evening, about twelve miles above that city, and sunk in about seven feet water, the water rising over her cabin floor. She had 100 barrels of salt and a few barrels of whisky and molasses in her hull. The balance of her freight was in her barge and was saved. The machinery, cabin and furniture will also be saved, but the hull will not be raised.

DEATH BY FREEZING .- An unfortunate woman named Ann Robinson-a street walker-was found at about half past 8 o'clock, in a street near the new jail, frozen to death. The unfortunate creature had only been discharged from the jail the day before. [Montreal Transcript, 30th.

AMICABLY SETTLED .- We are happy to announce, on the authority of the Hon. William H. Preble, counsel for Nathaniel P. Willis, Esq., that the latter gentleman had discontinued the suitagainst the editor of the Tribune for libel. [Portland Ame.
